

March 15, 2012

Your Stanford ID number is 05808941

Dear Sukolsak Sakshuwong,

Congratulations! It is our pleasure to offer you admission to the Master's degree program in the Computer Science Department beginning Autumn Quarter 2012-2013. We are pleased to inform you that a select group of our strongest incoming Masters students are being offered full financial support in the form of Course (Teaching) Assistantships, and you are among that group. A Course Assistantship covers tuition for up to 10 units per quarter, and provides a salary of \$7970 per quarter. (This is the 2011-12 rate. Actual salary will be adjusted upward when 2012-13 rates are set). You will be assigned to assist the instructor of a Computer Science course with a variety of course-related activities (including but not limited to grading, help sessions, administration), and you are expected to work 20 hours per week in that capacity. Your CA appointment will be renewed each quarter subject to strong performance as a Course Assistant and satisfactory academic progress. A second form of funding, known as a Research Assistantship (RA), is occasionally offered to Masters students after they have begun their programs, if they are selected by faculty to participate in a research group. If you are offered an RA-ship you are free to give up your CA-ship for one or more quarters and use the RA-ship for funding instead.

To accept the offer of admission, please set up your Stanford University Network Identification name (SUNet ID) at <http://sunetid.stanford.edu/>. You will need your Stanford student ID number which is at the top of this letter. Approximately 24 hours after you have set up your SUNet ID, you may log in to <http://axess.stanford.edu>; and click on the "Graduate Admissions Acceptance" link in the menu on the left to indicate your acceptance of the offer of admission. (Note: You will be able to create your email account and access other services approximately 24 hours after you accept the offer of admission.) We must receive your response to this offer of admission by April 15, 2012, or you automatically forfeit the offer of admission.

Please keep in mind that our offer of admission is contingent upon the verification of the fulfillment of admission requirements by the central Graduate Admissions office in the Office of the University Registrar. These include, but are not limited to, degree verification, SEVIS requirements, and receipt of ETS scores. If you accept our offer of

admission, the central Graduate Admissions office will review your file and notify you of any final credentials not yet received. They will authorize your enrollment only after verification of fulfillment of University admission requirements.

Information on housing, health insurance, financial aid and visas can be found at <http://studentaffairs.stanford.edu/gradadmissions/admitted>.

Fall Orientation will be held on Wednesday, September 19. The first day of classes will be Monday, September 24, 2012. You will receive more information about Fall Orientation events by electronic mail over the summer.

The Computer Science department takes pride in its world-renowned faculty, outstanding research facilities and diverse and talented student body. We feel that you would be an excellent addition to the department and hope you will join the entering class of 2012-13.

If you have any questions, please contact Verna Wong or Helen Buendicho at [admissions@cs.stanford.edu](mailto:admissions@cs.stanford.edu).

Sincerely,

Peché Turner, Department Manager  
Computer Science Department  
Stanford University
